

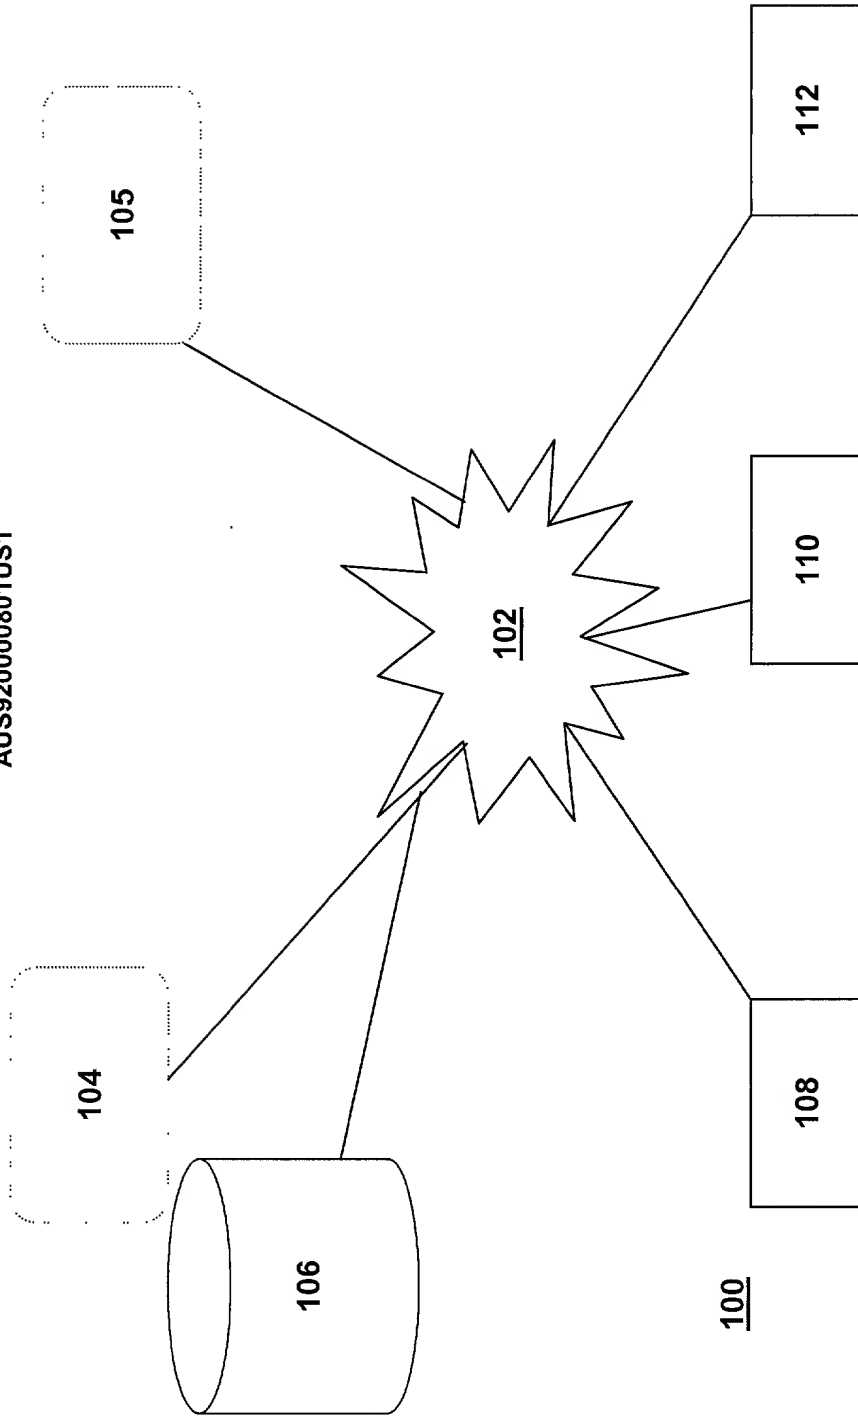

FIG. 1 is a block diagram of a system 100. The system 100 includes a central processing unit 102, a memory unit 104, a storage unit 106, a network interface unit 108, a user interface unit 110, and a security unit 112. The central processing unit 102 is connected to the memory unit 104, the storage unit 106, the network interface unit 108, the user interface unit 110, and the security unit 112. The memory unit 104 is connected to the storage unit 106. The network interface unit 108 is connected to the user interface unit 110. The security unit 112 is connected to the user interface unit 110.
